

Suggested Window Arrangement

The screenshot displays the ROES software interface with the following components:

- Main Window:** Titled "Ultra Color Lab Remote Order Entry System". It features a large central image of a bride holding a bouquet of yellow and white roses. To the right, a grid of smaller thumbnails shows various wedding scenes, each labeled with a file name (e.g., "0103 Burkhardt-Rivera.jpg").
- Bottom Left Panel:** Contains a "Toggle Template Designer" for the selected image "0103 Burkhardt-Rivera.jpg" (8x10). It includes controls for "Rotate Layout", "Zoom", and "Rotate Image". Below these are icons for "Sizes", "Options", "Quantity" (set to 1), and "Add to Order".
- Bottom Center Panel:** Includes a "1_Preparation" status bar with the instruction "Drag images to the layout to crop. 240 images found." and buttons for "Presenter", "Zoom", "Folder...", and "Online Services".
- Bottom Right Panel:** Contains a row of buttons: "Help", "Preferences", "My Information", "Open & Save", "Review Order", and "Exit".
- Standard Window:** Titled "Standard", it shows a grid of print sizes and prices:

| Size | Price | Size | Price | Size | Price |
|----------------|--------|----------------|--------|------|--------|
| 8x8 | \$2.75 | 8x10 | \$2.75 | 5x10 | \$2.75 |
| 10x10 | \$3.65 | 11x14 | \$8.25 | 8x12 | \$3.65 |
| 8.5x11 | \$3.25 | 7x10 | \$2.75 | | |
| 7x10w Whi Brdr | \$2.75 | 7x10w Blk Brdr | \$2.75 | | |
| 5x5w .25 Bord | \$1.35 | 4x6w .25 Bord | \$1.45 | | |
- Options Window:** Titled "Options", it shows settings for "Color Options" (Black + White, Sepia), "Dry Mount \$4.30", "UV Spray \$0.90", "Canvas Board \$19.10", "Stretch Canvas \$28.10", "Brush Stroke \$14.45", and "Back Vignettes".

To make the most efficient use of your screen when using ROES, we suggest that you open the **Sizes Palette** and **Options Palette** and arrange them on your screen as pictured here. This configuration will allow you to quickly switch between different products and print sizes, and will let you choose options for your prints with ease.

To display the palettes, click on the Sizes and Options buttons at the bottom left of the ROES window and select the **"Show Sizes Palette..."** and **"Show Options Palette..."** You can then move and resize the palettes until they look like the configuration at left.
